MODULAR LAUNDRY SYSTEM

WALL TO WALL CUSTOM MADE - Blackened Linewood Base Cabinets | White Gloss Upper Cabinets | Carrara Bench Top

# MODULAR LAUNDRY SYSTEM

Timberline has now released a new laundry system. This modular system will allow you to customise your laundry to suit your individual needs. Whether you need a custom wall to wall or just a small laundry we have a solution for you.

Draw up your own laundry on page 13 and we will custom make your benchtop to the length you require.

WOW! you can choose any cabinet in this brochure and **mix and match** our huge range of Colours and Handles. Personalise your cabinets with our ultimate selections to create just the look you are after!

Check out the inside back cover for our stunning selections that can be used on any cabinet in this brochure - at **NO EXTRA COST!**

If you would like a wall to wall laundry we can **accommodate the size with a custom made** laundry system to suit your individual needs.

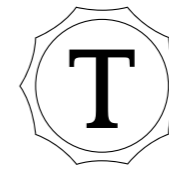

Every single cabinet in this brochure is 100% Australian made. That means you know you are getting a **reliable product from a reliable source.**

DIY Installation is easy with our modular system. **Each module is built ready for you to install.** No flat packs here. Installation instructions are included with all orders.

All prices are Recommended Retail Prices only. Please confirm pricing with your local distributor. The prices include GST and delivery to your store. Prices subject to change without notice. Images in this brochure are shown with accessories and other furniture not included in the price. Tapware and sink not included. E&OE. Choice of colour cabinets, bench tops and handle selection can be changed.

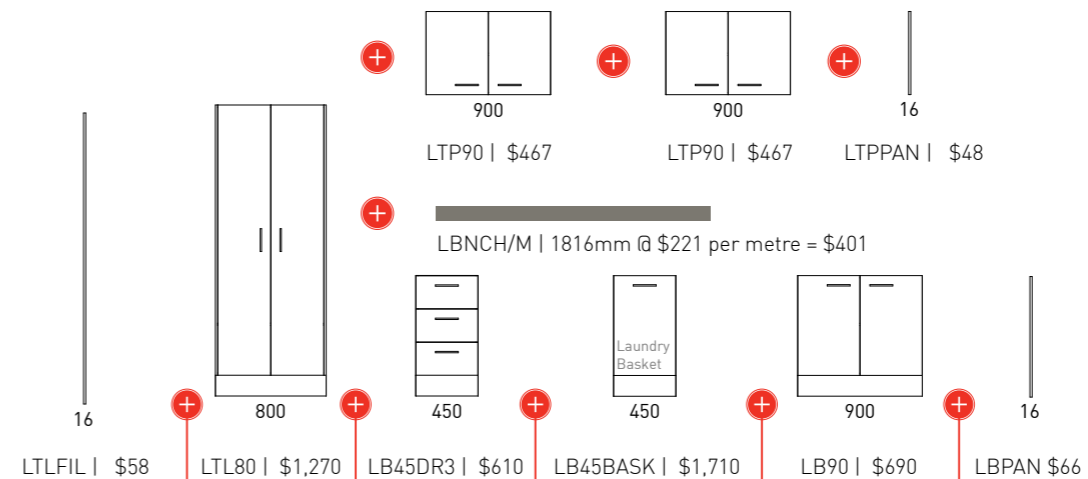

This contemporary modular laundry has plenty of space for your linen and laundry essentials plus extra room for the all important hidden laundry basket. The overhead cupboards are ideal storage and there is plenty of bench space for sorting and folding.

## ORDERING TIPS

These fantastic MODULAR laundry cabinets let you configure endless different combinations and layouts. Here are some simple steps to help you work it out:

1. Measure the total overall size you have available. Remember to make allowance for wall tiles if your laundry hasn't yet been tiled.
2. Check your washing machine and tumble drier sizes and confirm with the manufacturer what free space they require around them. We advise that you rather provide a bit too much free space rather than too little. This ensures that if you replace your machines later you won't be left with a space that is too small.
3. Select your preferred cabinet layout from the options above.
4. Check your laundry sink size with your plumber. We recommend a 900mm base cabinet to fit the sink. Some smaller sinks may fit into a 600mm base cabinet.
5. Place the sink next to your washing machine to allow your plumber to connect the water pipes for the washing machine.
6. If the side your cupboards butt up to a wall, order a FILL PANEL to go between the wall and the side of the cupboard. This allows for a neat finish against the wall.
7. For a neat finish order END PANELS to go beside washing machines or at the end of a row of cupboards if they are not butting up against a side wall. This is not mandatory but will make a neater finish.
8. Once you have your cabinet layout confirmed, add up the CABINET + END PANEL + WASHING MACHINE sizes to work out the overall benchtop length. Note: the maximum benchtop length is 3600mm.
9. If you are creating a wall to wall laundry we can make a special width cabinet to suit. E.G. we can reduce the size of a 900mm cabinet to 850mm.

All prices are Recommended Retail Prices only. Please confirm pricing with your local distributor. The prices include GST and delivery to your store. Prices subject to change without notice. E&OE.
